COMPUTER PURCHASE PROGRAM

Tatnuck Bookseller @ WPI
and
TCS³ @ WPI
are working together to provide custom
built computers by
TCS³
at special pricing to the WPI campus.

Welcome to **WPI**!

Technical Computer Solutions (TCS[3]) and Tatnuck Bookseller would like to take this opportunity to welcome you to WPI. TCS[3] is a local, alumnus owned computer manufacturer and reseller of computer hardware and services that has been working with the WPI community since 1995; Tatnuck Bookseller @ WPI has run the WPI Campus Bookstore since 1996. In 1998, we formed an alliance to provide the student body at WPI with an outlet for all of their computer needs. This unique arrangement was devised with the student body in mind, as the last thing students need are computer concerns to distract them from their studies.

With quality always being top priority, TCS[3] custom built personal computers all come with the following benefits, separating them from other providers in the industry:

- **WPI Network Compatibility:** Your computer will arrive ready to connect to the campus network. Upon setup, your machine is set to surf the web, send email to your friends and family, and most importantly, check your class information on WPI's intranet.

- **On-Site Service:** A one-year ON-SITE service plan covering hardware AND software issues included with every machine built for the WPI community. Unlike other service plans, you won't have to navigate through layers upon layers of technical support; one simple phone call to the bookstore or TCS[3] is all that is needed. WPI student service calls are prioritized and result in service that is sensitive to the fast paced WPI schedule, as well as the importance of the student's data. Extended service plans can be purchased for up to four extra years of coverage. All service plans cover a one mile radius from campus, whether you live in a dorm or an off campus apartment.

- **Delivery and Setup:** Your computer will be boxed and ready to go when you arrive on campus. TCS[3] offers delivery and set-up options that allow you to concentrate on your new environment without having to worry about setting up your computer.

- **Lifetime In-Store Labor Warranty:** In addition to our on-site warranties, every TCS³ computer comes with a lifetime in-store labor warranty. Our main location, which carries PC parts and peripherals, is two miles from campus.

We hope that you'll find Technical Computer Solutions and Tatnuck Bookseller @ WPI to be the perfect solution for all of your computer needs. If you have any questions regarding your technical needs at WPI, please visit our educational web page at http://www.tcs3.com/education or feel free to contact us at 1-888-399-TCS3 (8273) or by email at wpi@tcs3.com.

TCS³ Desktop Series
